

Fibre: transforming small businesses

- A family-owned holiday and retirement park in Perranarworthal, Cornwall
- Experiencing broadband speeds fifty times faster than previous connection
- Fibre has transformed the Wi-Fi service offered to campsite customers as all visitors now receive great speeds and a reliable service regardless of the number of users
- Company accounts no longer have to be put on disk and driven to the accountants in Falmouth, they can be emailed almost instantaneously
- Uploading documents used to take several frustrating attempts but now happens at the push of a button
- CCTV cameras can now be installed painlessly over the fast, stable Wi-Fi connection as opposed to the expensive, manpower intensive alternative of digging trenches to fit hard-wired cameras
