

SUMMER 2017 EDITION

Message from Cllr Jane Storey

Suffolk Better Broadband Summer 2017 Update

Following the local elections in May, I am pleased to report that I will remain focussing on leading forward the broadband programme in Suffolk, and campaigning for improved coverage for all.

Our programme with BT continues to go well, having moved above 90% coverage in the county. Over the next three months, we hope to make progress with increasing our coverage plans further still, and are acutely aware of the issues faced by those with little or no broadband.

As I have written previously, government have identified funding to reach over 95% coverage by 2019, and are developing a "Universal Service Obligation" for the final few percent. We are exploring this in more detail, and are committed to ensuring that Suffolk reaches as close to full coverage as possible.

For those who would like an interim solution whilst the fibre rollout progresses, vouchers for satellite / Wi-Fi connections can be applied for via our website. Whilst this has limitations, it is a stopgap solution which we felt it was important to offer.

Each three months, we are committed to providing an update, and reporting on the areas which have been upgraded, and also those which are in the next phase of rollout. We'll also update our website map to reflect these areas too.

Please ensure that you contact the team for any briefings, questions or issues, on broadband@suffolk.gov.uk

Increasing numbers of superfast broadband delivered to the county

A significant number of areas have been upgraded to superfast fibre optic broadband since our last bulletin, and more are planned over the next three months. See the tables overleaf which summarise these.
